**“CURL UP N’ STAND” SYSTEM and “KIASU”**

**“Curl Up n’ Stand” Easels**

Elegant system to support frames. Composed of a Bracket fixed to the back, and a Leg.

The Leg can be of three different sizes (according to the size of the frame).

The Bracket that receives the leg can be either Fixed, or Slip-on Bracket which simply slips on the back.

- Model KB1 with rosettes attaches permanently to the back using fixing machine “Mighty Mouse”.
- Model KB3 slips on the back, no machine required.

**“Kiasu” Easels**

Elegant slip-on easel suitable for any width of moulding. The slip-on bracket is pushed on to the back. No machine required.

The leg is permanently attached to the bracket and can be rotated to any desired angle to stand the frame. Or the leg can lie flat on the back to use its hanging facility.

Kiasu Easels are available in two sizes according to the size of the frame.
