

**Software for framers "Frame34"**

Frame34 is a program that can be used even by those who are not very familiar with computers. It is possible to start working with the easiest parts of the program and, little by little, mastering the whole program. In Italian and French only.

Frame34 is particularly useful for frame price calculation and for printing customer order forms. Framers have only to input the basic data of the frame (base, height, moulding reference, glass).

The program comes with all of the basic data necessary for immediate working. Anyway it is always possible to modify the basic data as desired by changing costs, profit and work prices. In this way any framer can suit the computer program to his own specific needs.

Each framer can choose which version of the program to buy according to his own needs. It is possible to order Frame34 in its unlimited version or buy a limited version valid 60 days. In this case, each framer has time to evaluate if the program meets his own needs and, afterwards, to extend the validity of the program for other 90 days or to buy the unlimited version. In any case, none of the stored data will be lost.

The manual in the CD can be printed anytime. We can supply it on request (price € 20).

Software Frame34:	Price	Code
Unlimited validity (no expiring date)	400	F34
60 days limited validity	100	F34G60
Validity extends. from 60 days to unlimited	320	F34P60X
Validity extends. from 60 days to 150 days	165	F34P150
Validity extends. from 150 days to unlimited	165	F34P150X
Updating of previous programs	120	F34AG
Manual printed in Italian	20	F34MI
Manual printed in French	20	F34MF

**What can Frame34 do?**

- Price calculation
- Customer order forms
- Invoices, accounts and estimated costs
- Stock recordings, transport papers, price lists and inventories
- Manual or automatic orders to suppliers.
- Price list printings
- Recordings of customers, suppliers and articles, with the possibility of ordering and searching
- Printing self-adhesive labels for the back of frames, article labels (even with bar codes), address labels of customers or suppliers, etc.
- Various printings, such as business cards, forms with heading, etc.

Frame34 can work with two different currencies chosen by the user (for example, Euros and Dollars).

The change from one currency to the other is immediate. It is possible to store in memory articles or addresses of customers and suppliers with the possibility of search at any time. It is also possible to have a detailed account for each specific frame which includes consumptions, cost of the materials used, working time and profit.

With the updated version of Frame it is also possible to keep in memory the photos of the articles, to photograph the picture to be framed and to see on screen how the picture will look once framed with the moulding and mountboard chosen by the customer.

It's not necessary to use a printer. The program works with computers which run on Window XP or following versions. On the website [www.framelist.eu](http://www.framelist.eu) you can see the detailed description, the screenshots of the program and a video which explains how to use it.

## TRAINING COURSES for FRAMERS BEGINNERS

The Rinaldin organizes weekly courses for framers beginners or quick courses of one or two days. Lessons are held from 8:30 am to 12:30 pm and from 2:00 pm to 6:00 pm.

The courses are run by instructors with extensive experience in the business.

The number of students is limited to a maximum of 4 people in order to give sufficient personal attention to everybody. In view of the limited number of places it is advisable to book well in advance.

Payment must be made at least 2 weeks before the start of the course. Any cancellation must be notified at least 8 days before the start of the course in order to have the right to a full reimbursement.

We can also assist students for accommodation at nearby hotels at special rates.

**Weekly Training Courses**

23/27 April 2012	03/07 September 2012
21/25 May 2012	08/12 October 2012
18/22 June 2012	05/09 November 2012
23/27 July 2012	03/07 December 2012

**2-day Course**

16/17 April 2012	10/11 September 2012
07/08 May 2012	15/16 October 2012
04/05 June 2012	12/13 November 2012
09/10 July 2012	10/11 December 2012

**1-day Course**

02 April 2012	17 September 2012
14 May 2012	22 October 2012
11 June 2012	13 November 2012
16 July 2012	17 December 2012

**Weekly Course**  
The course covers all the basics required by a framer. It is meant specifically for beginners and not for expert framers. At the end of each course we hand out a certificate of participation. Some of the main topics are:

- Moulding cutting with saw and guillotine
- Frame assembling
- Frame touching up
- Glass and cardboard cutting
- Mountboard cutting
- Mountboard decoration
- Mounting pictures in the frame
- Applying and protecting backs on frames
- Tapestry and painting stretching
- Fabric mountboards
- Manual and Vacuum Press mounting
- Basic gilding
- Use of software for framers and price calculation
- In the shop: the choice of the frame

**Quick Course**  
One or two-day course covering the basic operations about the frame. The one-day course covers only moulding cutting and assembling. The two-day course covers, besides moulding cutting and assembling, also glass cutting, mountboard cutting and mounting pictures in the frame. The quick course is particularly useful for framers beginners who have not much time to attend a weekly course or for hobbyists interested in the framing field.

Weekly Course (5 days)	€ 600+VAT	Code CP
2-day Course	€ 280+VAT	Code CPD
1-day Course	€ 150+VAT	Code CP1

The fee includes lunch at a nearby self-service.

Courses are held in Italian but they may be attended by English-speaking students for whom interpreters can be available. The cost for an interpreter is equal to the corresponding course and may in case be shared between students speaking the same language.

The program of the courses can be changed without notice. For up-to-date information and for the detailed program of the course, please visit our website [www.rinaldin.com](http://www.rinaldin.com).
