	<p><b>Framers table for the workshop</b> A sturdy table for the framing workshop can be easily built by combining vertical (sides and backs) and horizontal (base and cover) elements together. The depth can be either of 100 or 125 cm. There is no limit for the length as it can be increased anytime by adding new elements to the structure. The lower part of the table can be used to storage cardboards, mountboards, glass, laminil. We suggest that you apply the carpet on the framers table (see page 32). Our technicians are at your disposal for further information and to help prepare the order.</p>	Cover with groove 50x98 cm	€ 46		ERU50x98

<p><b>Storage cabinets</b> made of white steel. Used for tidily storing papers, cardboards, posters, prints, graphics, pictures to be framed, etc. The top surface can be used as a workbench or as a counter. 47 mm drawer depth. A complete cabinet also needs a base and a top. It is possible to stack two or more cabinet bodies. In this case only one top is necessary. You can order the complete cabinet (base, body and top) or the single elements separately.</p>	<b>Small Cabinets</b> External cm 75,5x116 Internal cm 73x105	Top	€ 58	94C
