

Clip frames											Clip frames with polystyrene											Clip frames wood											Clip frames aluminum black or aluminum colour										
<p>They are composed of grind glass, MDF, a black and white paperboard and the clips. Each clip frame is singularly packed in a white corrugated carboard box.</p> <p>Clip frames of large size can easily be broken in transit. Clip frames over 30x40 cm therefore can only be shipped on pallets (which involves an extra charge for packing to agree with).</p> 											<p>Clip frames with polystyrene (plastic glass) do not break easily like clip frames with glass, thus they are suitable for public places such as schools, nursery schools, hospitals, offices.</p> <p><b>Quantity discounts:</b> 5 pcs 10% 10 pcs 15% 20 pcs 20%</p> 											<p>They are the same as the clip frames on the left but with a small frame in addition.</p>

Medium Density Panels

Grind Glass

Polystyrene (crilex - plastic glass)

4 mm thick. With groove at 25 mm from the edge.

Minimum order: 5 pieces of the same size

Grind glass is normally used for clip frames. It can be used however for normal frames. Advantages are security, no glass waste, no cutting glass time. No delivery for sizes over 30x40 cm due to breaking risks in transit. In big sizes we deliver plastic glass (polystyrene) only.

Minimum order: 5 pieces of the same size.

Transparent, light and unbreakable. Can often be used instead of standard clear glass. The non-glare polystyrene has both a bright and a mat surface, therefore it can be used either as a glossy or as a matt plastic glass.

Min. order: 5 pcs of the same size.
