

**Software for framers "Frame38"**

Frame38 is a software that can be used even by those who are not very familiar with computers. It is possible to start working with the easiest parts of the software and, little by little, mastering the whole software. In Italian and French only. The software works with computers which run on Window XP or following versions. Frame38 is particularly useful for frame price calculation and for printing customer order forms. Framers have only to input the basic data of the frame (base, height, moulding reference, glass).

The software comes with all of the basic data necessary for immediate working. Anyway it is always possible to modify the basic data as desired by changing costs, profit and work prices. In this way any framer can suit the computer program to his own specific needs.

Each framer can choose which version of the program to buy according to his own needs. It is possible to order Frame38 in its unlimited version or buy a limited version valid 60 days. In this case, each framer has time to evaluate if the program meets his own needs and, afterwards, to extend the validity of the program for other 90 days or to buy the unlimited version. In any case, none of the stored data will be lost. The manual in the CD can be printed anytime. We can supply it on request (price € 20).

**What can Frame38 do?**

- It calculates prices of frames
- It makes invoices, accounts and estimated costs
- It stocks recordings, transport papers, price lists and inventories.
- It makes orders to suppliers.
- It prints price lists
- It records customers, suppliers and articles, with the possibility of ordering and searching
- It prints self-adhesive labels for the back of frames, article labels (even with bar codes), address labels of customers or suppliers, etc.
- It makes various printings, such as business cards, forms with heading, etc.
- Can work with two different currencies chosen by the user (for example, Euros and Dollars).
- It stores addresses of customers and suppliers.
- It has a detailed account for each specific frame such as consumptions, cost of the materials used, working time and profit.
- It keeps in memory photos of the articles, to photograph the picture to be framed and to see on screen how the picture will look once framed with the moulding and mountboard chosen by the customer.

Software Frame38:	€	Code
Unlimited validity (no expiring date)	300	FRAME38
Validity limited to 60 days after the purchase	60	FRAME38G60
Validity extends. from 60 days to unlimited	250	FRAME38P60X
Updating of previous programs	100	FRAME38AG

**Training courses for beginners**

The Rinaldin organizes three days courses for framers beginners.

Lessons are held from 8:30 am to 12:30 pm and from 2:00 pm to 6:00 pm in our seat in Udine (NOT in the seat of Verona).

The number of students is limited to a maximum of 3 people in order to give sufficient personal attention to everybody.

In view of the limited number of places it is advisable to book well in advance.

Payment must be made at least 2 weeks before the start of the course.

We can also assist students for accommodation at nearby hotels.

Please do not hesitate to ask us further info.

**Program of the course**

The course covers all the basics required by a framer. It is meant specifically for beginners and not for expert framers with experience.

The complete program of the course is on our website [www.rinaldin.com](http://www.rinaldin.com).
