	Spray Mount. Repositionable transparent adhesive. Suitable for mounting photographs, posters, prints. Its delayed drying effect allows you reposition pictures after having been applied to backboards. 400 ml spray can.	20,00	3	5%	12	10%	24	12%	661			
	Photo Mount. Permanent, transparent adhesive. Suitable for photos, posters, prints. The immediate drying effect does not allow repositioning. 400 ml spray can.	18,30	3	5%	12	10%	24	12%	662			
	Super Spray 77. Permanent transparent adhesive. Fast drying and highly adhesive. Suitable for light materials such as paper, cardboard, wood, glass, etc. Spray it on both surfaces to glue. 500 ml spray can.	15,60	3	5%	12	10%	24	12%	663			
	Spray 75. Repositionable transparent adhesive. Used for fixing or temporary placing lightweight materials such as paper, cardboard, textiles, etc.. Enables to remove and replace the sheet. Suitable for positioning prints on a support. 500 ml spray can.	15,60	3	5%	12	10%	24	12%	660			
	Transparent highly concentrated glue quick setting. Thanks to its quick (only 10 minutes) and high adhesivity it is suitable for joining frames. 250 gram container.	5,70	4	10%	12	15%	48	20%	618			
	Transparent Vinavil NPC glue. Suitable for mounting wood, paper, cardboard, chipboard, fabrics, etc.a	1 kg container	7,30	4	8%	20	12%			612		
		5 kg container	34,00	4	8%					612T		
Quick drying transparent glue. 200 ml bottles with nozzle for spreading.	4,00	4	10%	12	15%	48	18%	652				
	Contact glue "Collaprene". Suitable for almost any material: wood, paper, metal, cardboard, plastic, fabrics, gum and so on. Apply a light coat on both parts and wait 10 minutes; then join and press strongly. Immediate drying effect. 75 ml tube.	2,00	6	10%	24	15%	72	20%	667			
	Silicone, acrylic by "Gubrasil". Used for mounting anything on glass. 280 ml tube.	4,60	4	10%	12	15%			654			
	Gun for silicone. Used for pushing the silicone out of its tube.	2,80	3	10%					651P			
	Electric glue gun M220. Professional gun for intensive use. It works with hot-melt glue sticks. With electronically adjusted temperature. Power: watt 220.	103,00	3	6%					M220			
		Transparent hot-melt glue sticks for gluing guns. Length 20 cm. Diameter 12 mm. Maximum exposing time (during which the glue remains liquid) 15 seconds.	7,60	5	10%	20	14%	50	18%	631K		
	Transparent adhesive tape. For different uses.	Width	Length	per kg								
		mm 15	mtrs 66	0,80	4	20%	20	30%	120	40%	68115	
		mm 19	mtrs 66	0,95	4	20%	16	30%	96	40%	68119	
	Adhesive tape in polypropylene, brown or white coloured. Suitable for boxes, packages and to seal the back of frames.	brown coloured	mm 50	mtrs 66	1,75	6	20%	18	30%	36	35%	68450
		white coloured	mm 50	mtrs 66	1,75	6	20%	18	30%	36	35%	68350
	Masking adhesive tape Cream coloured. Mainly used to seal the back of frames.	mm 25	mtrs 50	1,60	4	20%	12	30%	72	40%	68525	
		mm 38	mtrs 50	2,20	6	20%	24	30%	96	35%	68538	
		mm 50	mtrs 50	2,90	6	20%	18	30%	72	35%	68550	
	Masking adhesive tape in slightly cracked paper, cream coloured. The adhesive is synthetic rubber. For its flexibility it is used mainly to close the frames on the back as it adheres easily to the edges. Manufactured by Tesa.	mm 25	mtrs 50	1,25	12	15%	24	20%	72	25%	68725	
		mm 38	mtrs 50	1,90	10	15%	20	20%	48	25%	68738	
		mm 50	mtrs 50	2,40	6	15%	18	20%	36	25%	68750	
		mm 75	mtrs 50	3,30	6	15%	12	20%	24	25%	68775	
	Masking adhesive tape with removable adhesive. Suitable for applications on delicate surfaces. For its peculiarity it is used mainly to delimit the matboard decorations as, when it is removed, it does not damage the matboards and leaves no trace.	mm 25	mtrs 50	4,10	4	10%	12	16%	72	22%	68025	
		mm 30	mtrs 50	4,90	4	10%	10	16%	60	22%	68030	
	Double-side adhesive tape in transparent polypropylene. Mainly used to fix a print on a support.	mm 12	mtrs 50	2,20	6	20%	24	30%	72	35%	68812	
		mm 19	mtrs 50	3,00	6	20%	18	25%	48	30%	68819	
		mm 50	mtrs 50	7,00	4	10%	12	15%	36	20%	68850	
	Transfer adhesive tape. Use it with applicator code ATG (see below).	mm 12	mtrs 33	2,00	12	20%	72	25%	216	30%	68912	
		mm 12	mtrs 50	2,90	12	20%	72	25%	216	30%	68952	
		mm 19	mtrs 33	3,00	12	20%	48	25%	144	30%	68919	
		mm 19	mtrs 50	4,50	12	20%	48	25%	144	30%	68959	
	Gum paper tape, brown. Dampen the paper tape or use a dampener for gum paper tape (see below).	mm 40	mtrs 200	2,50	4	8%	24	15%	120	20%	683	
		mm 60	mtrs 200	3,40	4	8%	16	15%	80	20%	683G	
	Gum paper tape, white. Advisable when the back of the frame is white (foamboard or white corrugated cardboard).	mm 40	mtrs 200	2,80	4	8%	24	15%	120	20%	683B	
		mm 60	mtrs 200	3,90	4	8%	16	15%	80	20%	683BG
