	Cutting Mat. Ideal when using a knife as blades can penetrate without breaking or blunting. The cutting mat will remain smooth with an unlimited number of cuts (to avoid inclined cutting on mountboards). White alignment grid on one side to help cutting operations. The mat is 3 mm thick and can be used on both sides. It is composed of 5 layers of PVC. If not kept in a horizontal position could become wavy. It could ripple also if it is placed next to a heat source or heat of the sun.	cm 22x30	3,00	3	10%	10	20%	30	30%		22830
