	28 LED lamp with flexible arm, provided with electric wire and socket. The basis of the lamp is magnetic and can be fixed and removed very easily on any machine in the position where a higher lightening is required. Suitable for underpinners and mitring machines.	39,00	3	5%	ML28
 Tutorial video on Rinaldin website	The "MicroStitch". It allows you to quickly and accurately mount fabrics to the frame support. The system comes with a special gun with nylon strips fixing the fabric. One needle is included. Further spare needles can be ordered separately.	43,00	3	6%	EZ432
	MicroStitch gun	16,50	4	6%	EZ441S
	Needle for MicroStitch gun	7,40	3	8%	EZ443K
 Tutorial video on Rinaldin website	Centering tool. Used to find the center of frames quickly and accurately in order to apply the hangers. Easy to use. Just place the two ends of the device onto the corners of the frame. A spring pushes the centering tool towards the frame. The adherence to the frame is helped by the articulated corners which are at the ends of the device. There is no need to mark the frame. Maximum frame side: 100 cm.	10,20	3 10 20	10% 20% 30%	223
	Centering tool for small frames. Maximum frame side: 40 cm.	7,70	3 10 20	10% 20% 30%	223M
 Video on Rinaldin website	Oval&Circle mat cutter Logan 201. For framers who do not need all the features of more expensive machines. It cuts bevel openings: ovals from 7x11 to cm 51x58 cm and circles from 10 to 51 cm diameter. Max difference between oval width and oval height is 7,5 cm.	60,00	3	10%	L201
	Blades for Logan 201 mountcutter	Box of 20 blades	8,90	3 10	8% 15%
	Hinges with arrow pointes to join two frames together. Pack of 100 pieces.	9,80			387
