

Software for framers "Frame38"

What can Frame38 do?

The software is only in Italian and French.

Frame38 is a software that can be used even by those who are not very familiar with computers. It is possible to start working with the easiest parts of the software and, little by little, mastering the whole software.

The software works with computers which run on Window XP or following versions.

Frame38 is particularly useful for frame price calculation and for printing customer order forms. Framers have only to input the basic data of the frame (base, height, moulding reference, glass). The software comes with all of the basic data necessary for immediate working. Anyway it is always possible to modify the basic data as desired by changing costs, profit and work prices. Each framer can choose which version of the program to buy according to his own needs. It is possible to order Frame38 in its unlimited version or buy a limited version valid 60 days. In this case, each framer has time to evaluate if the program meets his own needs and, afterwards, to extend the validity of the program.

In any case, none of the stored data will be lost.

- It calculates prices of frames
- It makes invoices, accounts and estimated costs
- It makes orders to suppliers.
- It prints price lists
- It records customers, suppliers and articles, with the possibility of ordering and searching
- It prints self-adhesive labels for the back of frames, article labels (even with bar codes), address labels of customers or suppliers, etc.
- It makes various printings, such as business cards, forms with heading, etc.
- Can work with two different currencies chosen by the user (for example, Euros and Dollars).
- It stores addresses of customers and suppliers.
- It has a detailed account for each specific frame such as consumptions, cost of the materials used, working time and profit.
- It keeps in memory photos of the articles, to photograph the picture to be framed and to see on screen how the picture will look once framed with the moulding and mountboard chosen by the customer.

Prices of the program if you download it from the site www.frame38.info.

Software Frame38:	€	Code
Unlimited validity (no expiring date)	270	FRAME38
Validity limited to 60 days after the purchase	30	FRAME38G60
Validity extends from 60 days to unlimited	200	FRAME38P60X
Updating of previous programs	100	FRAME38AG

Surcharge for sending the program on the USB key € 30

Training courses for beginners

Rinaldin organizes three days courses for beginners.

Lessons are held from 8:30 am to 12:30 pm and from 2:00 pm to 6:00 pm in our seat in Udine (NOT in the seat of Verona).

The number of students is limited to a maximum of 3 people in order to give sufficient personal attention to everybody.

In view of the limited number of places it is advisable to book well in advance.

Payment must be made at least 2 weeks before the start of the course.

We can also assist students for accommodation at nearby hotels.

Please do not hesitate to ask us further info. The instructor Nicole D'Antoni speaks fluently English, German, Italian (tel.0039.0432478672)

Program of the course

The course covers all the basics required by a framer. It is meant specifically for beginners and not for expert framers with experience.

The complete program of the course is on our website www.rinaldin.com.

Training course (3 days) € 320+VAT Code CP

Courses Calendar 2020/2021

12/14 October 2020	15/17 March 2021
16/18 November 2020	12/14 April 2021
11/13 January 2021	10/12 May 2021
15/17 February 2021	14/16 June 2021
